Therapist Profiles — Demo Knowledge Base

Sample therapist directory for testing retrieval-augmented generation (RAG) in an AI appointment assistant.

DEMONSTRATION CONTENT — fictional information for software testing only. These examples are invented, credentials are unverified, and this material is not clinical advice.

Purpose and data status

This document contains fictional example profiles. Names, qualifications, experience and service descriptions are illustrative only.

No named person or credential in this document is verified. Do not use this directory for real clinical or booking decisions.

Profile A: Pabitra Barua (fictional)

Display name: Pabitra Barua.

Illustrative qualification: MSc in Counselling Psychology (fictional demo data; not verified).

Demo service interests: stress management, adjustment to life changes, emotional wellbeing and general counselling support.

Demo approach: collaborative conversations to identify concerns, explore coping options and set practical goals.

This profile does not establish real availability, registration, credentials or clinical specialisation.

Profile B: Mira Sen (fictional)

Display name: Mira Sen.

Illustrative qualification: MA in Applied Psychology (fictional demo data; not verified).

Demo service interests: relationship communication, work-related stress and general emotional wellbeing.

Demo approach: supportive discussion, identifying communication patterns and setting realistic goals.

This is a made-up test record, not a recommendation or endorsement of a real clinician.

Example RAG test questions
